Iowa Statewide Assessment of Student Progress

Iowa Percentile Ranks for 2021

The Iowa Statewide Assessment of Student Progress (ISASP) measures student achievement and understanding of the Iowa Core Standards in English Language Arts (ELA), Mathematics, and Science. Indicators of student proficiency and growth from grade-to-grade are provided. ISASP assesses English Language Arts and Mathematics for students in grades 3–11 and Science in grades 5, 8, and 10. The assessments, offered in both paper-and-pencil and computer-based formats during the last quarter of the academic year, include multiple-choice and technology-enhanced items, constructed response items, and open-ended essay questions aligned to the Iowa Core Standards.

Understanding how students change and grow over time is extremely important as teachers and schools design education programs tied to standards in English Language Arts, Mathematics, and Science. Student achievement and growth can be characterized in a variety of ways, including proficiency, growth scores, and status relative to a goal such as college readiness or to a similar group of students. Three different types of metrics are available to help interpret ISASP results. A *proficiency-based reference* provides students and educators with descriptions and indicators of levels of proficiency as determined by the state of Iowa with designations of Not-Yet-Proficient, Proficient, and Advanced. Proficiency-based scores are criterion-referenced and reflect the level of achievement compared to the Iowa Core standards. A *growth reference* provides a metric for examining the change between two or more administrations of an assessment such as the difference between ISASP scale scores from one year to the next. A *normative-based reference* is provided through the state of Iowa percentile ranks that are available after each administration and specific to the particular year of the assessment program.

ISASP was first administered in the spring of 2019, and the second administration was spring 2021. This document provides the Iowa Percentile Ranks (IPRs) based on performance from the 2021 administration for students that completed the ISASP in a proctored environment. This document is intended to complement interpretative information from proficiency-based and growth references. Similar information from the 2019 administration can be found at:

<https://iowa.pearsonaccess.com/resources/reports/IowaPercentileRanksfor2019.pdf>.

Using the Results

These conversion tables can be used by educators to find the 2021 percentile rank associated with Scale Scores on the ISASP assessments. The conversion tables are organized by grade, and each grade-level table includes columns containing the IPR of each ISASP Scale Score. The Scale Score to Percentile Rank conversions were obtained directly from the statewide distributions of ISASP Scale Scores in the spring 2021 administration for students that completed the tests in a proctored environment. In each test area and grade, these tables were developed from the final scoring file created for the purpose of reporting scores to Iowa schools. To use the tables, locate the grade-level of the student. Then find the student's ISASP Scale Score in the column labeled Scale Score. The scale scores are ordered from high to low in each grade.

It is important to recognize that the ISASP was developed to align with the Iowa Core Standards and provide standards-based information for students and their families, for Iowa schools and the Iowa Department of Education's School Performance Profiles. The Iowa Percentile Ranks presented in this document do not play a direct role in any statewide accountability use of assessment results. They are intended to support other administrative uses of ISASP scores in Iowa schools.

Important Findings

A comparison of the 2019 IPRs to the 2021 IPRs leads to the following general observations:

- The 2021 norms are generally “easier” than the 2019 norms, as there are more increases in IPRs from 2019 to 2021 across grade levels.
- In English Language Arts, the average Iowa student ($IPR = 50$) in 2021 performed similarly to the average Iowa student in 2019.
- In Mathematics, students at all performance levels in 2019 outperformed students in 2021, however the amount varies from grade to grade.
- In Science, students in 2021 in grades 5 and 8 generally outperformed students in 2019.

Since the previous administration in 2019, the Iowa student population has changed in terms of what students know and are able to do in mathematics across all grades. The 2021 ISASP results revealed that student achievement in both core areas of reading and mathematics has decreased for students in third grade. These findings are consistent with results from other states assessment programs over the same time span.

Because achievement of the general school population has declined over the past two years, IPRs based on the 2021 norms and reported for ISASP may appear to be higher than IPRs

reported for the 2019 administration. In the conversion tables provided in this document, students who took the ISASP in 2021 are being compared to a group of students that, overall, did not perform as well as did students in 2019. A student's relative standing will increase when his or her performance is compared to that of a group of lower performing students.

Because the tests in each administration of ISASP are assembled to be statistically comparable to tests in each previous administration, changes in performance on the tests can be attributed to increases or decreases student achievement and not to changes in the difficulty of the tests. ISASP has been carefully designed using the Iowa Core Standards. The alignment between instruction and the Iowa Core Standards should be carefully considered as results from ISASP are interpreted following the interruptions to instruction experienced between 2019 and 2021. The importance of up-to-date normative information is critical during times of change such as the COVID-19 pandemic.

Table 1: Grade 3 – Spring 2021 Scale Score to Iowa Percentile Rank

| Scale Score | Reading | Language / Writing | ELA | Mathematics | Scale Score |
